presents

PATHWAY TO A GOVERNANCE PRACTITIONER PROGRAMME

INTRODUCTION

With the increasing role of governance professionals based on the new legislation and guidelines (Companies Act 2016, Malaysian Code on Corporate Governance 2017 and the recent Malaysian Anti-Corruption Commission (Amendment) Act 2018 on Corporate Liability) there is a growing demand for competent professionals to act as governance advisors to their Boards.

A governance advisor should be fully equipped to understand the key elements of business management and corporate integrity. Legal principles, governance & ethics, finance, effective anti-corruption measures and risk management form the suite of competencies necessary for a senior officer to advise the Board and Management on corporate governance matters.

MICG, in collaboration with ICLIF and TRIDENT, is introducing a new programme to meet this requirement, PATHWAY TO A GOVERNANCE PRACTITIONER programme. This modular-based programme combines cutting-edge thinking with practical implementation, delivered by leading experts in the relevant fields.

The programme comprises two levels. For those entering the field of corporate governance, the Intermediate Level is designed to equip participants with their core competencies. Prior training and experience in some of the subject areas is an advantage, but direct experience of working in corporate governance is not required.

The Advanced Level is designed for those who have completed the Intermediate Level, or possess more than two (2) years of direct work experience in corporate governance. Advanced practitioners will be able to specialise in particular areas, as well as developing their core competencies to the highest level.

Certificates will be awarded for completion of participation; and for passing all the modules within a two-year timeframe.
