

Greenhouse Gas (GHG) Emissions Accounting: Scope 1, 2 and 3

Programme Overview

This programme provides a comprehensive understanding of greenhouse gases (GHG), their importance, and the requirements for reporting GHG emissions in Malaysia. It introduces the GHG Protocol Corporate Accounting and Reporting Standard and covers the definition, sources, and measurement of Scope 1, Scope 2, and Scope 3 emissions. The course also addresses challenges and opportunities in measuring and reporting GHG emissions, as well as mitigation and reduction strategies. Participants will gain the knowledge and skills necessary to effectively manage and reduce GHG emissions in their organisations, contributing to a more sustainable future.

Part 1 | 9:00 am – 10:30 am
